

THE EVENING BULLETIN.

VOLUME VII.

MAYSVILLE, KY., WEDNESDAY, JANUARY 11, 1888.

NUMBER 42,

TIRED OUT!

At this season nearly every one needs to use some tonic. IRON enters into almost every physical process of the body. It is the basis of the blood, and without it the system cannot function properly. It is the tonic of the system, and without it the system cannot function properly. It is the tonic of the system, and without it the system cannot function properly.

BROWN'S IRON BITTERS
THE BEST TONIC
For Weakness, Lassitude, Lack of Energy, etc., it has no equal, and is the only iron medicine that is not injurious. It enriches the blood, invigorates the system, restores appetite, aids digestion, and does not blacken or injure the teeth, cause headache or produce constipation—other iron medicines do. Dr. G. H. BINKLEY, a leading physician of Springfield, Ohio, says: "Brown's Iron Bitters is a thoroughly good medicine. I use it in my practice, and find its action exactly all other forms of iron. In weakness, or a low condition of the system, Brown's Iron Bitters is usually a positive necessity. It is all that is claimed for it." Dr. W. N. WATERBURY, 1219 Thirty-second Street, Georgetown, D. C., says: "Brown's Iron Bitters is the tonic of the age. Nothing better. It creates appetite, gives strength and improves digestion." Genuine has above Trade Mark and crossed red lines on wrapper. Take no other. Made only by **BROWN CHEMICAL CO., BALTIMORE, MD.**

AT THE NATIONAL CAPITAL

BILLS TO REDUCE THE SURPLUS IN THE UNITED STATES TREASURY.

Bonds to Be Purchased When the Surplus Reaches \$10,000,000—Another Bill to Reduce the Interest on Four-Per-Cent Bonds—Other Washington News.

WASHINGTON, Jan. 11.—The bill introduced in the house to-day by Mr. Bliss, of New York, to dispose of the surplus in the treasury and to prevent the accumulation thereof, provides that whenever there shall be an accumulation exceeding \$10,000,000 over and above the sum necessary to pay the regular and contingent expenses of the government, the secretary shall immediately report the fact and the exact amount of the surplus to the president and set forth fully the entire amount of moneys in the treasury, the amount necessary for the current expenses of the fiscal year and the balance on hand constituting the said surplus fund.

That within thirty days after the receipt of the report the president shall cause the secretary of the treasury to advertise in two or more newspapers in each city of the United States containing a population of over 200,000 inhabitants, proposals for the purchase of bonds of the United States to the full amount of then existing and declared surplus, said advertisements to be made for the space of thirty days; that within ten days from the close of the thirty day advertisement for proposals the secretary, comptroller of the currency and treasurer of the United States shall open and declare publicly all bids received, with the names of the bidders, the amount of bids offered and price, they shall then and there adjudicate the purchase to the person or persons who have offered bonds at the lowest rate, provided, however, the president of the United States shall have a right to reject proposals, if in his opinion their acceptance will be disadvantageous to the government.

Reducing the Interest on Bonds.

WASHINGTON, Jan. 11.—Congressman S. V. White, of New York, it is understood, has prepared for introduction into the house a bill providing that the rate of interest on the four per cent. bonds be reduced to 2 1/2 per cent. by paying the holders of the said bonds the difference between 2 1/2 per cent. and 4 per cent. for the number of years that the bonds have to run before maturity. In this way Congressman White, who is familiarly known in Wall street as "Deacon" White, proposes to reduce the surplus in the United States treasury, and at the same time enable the government to save money.

According to recent statement the four per cent. bonds now outstanding amount to \$738,000,000, of which the National banks hold \$125,000,000. The larger part of the balance is held by insurance and trust companies, savings banks and holders of trust funds. Now the proposition is to pay these holders 1 1/2 per cent. of the unaccrued interest for the time the bonds have to mature, or, in round figures, \$199,500,000, less 2 1/2 per cent. on that sum, which the government would deduct, by reason of the discount, making the payment \$174,624,000. Such a cash payment would enable the government to save 2 1/2 per cent., or more than \$50,000,000 for nineteen years, upon the money that would otherwise be disbursed.

Two Reports on Lamar's Confirmation.

WASHINGTON, Jan. 11.—At the special meeting of the senate committee on judiciary this morning a final vote was taken upon the nominations of Mr. Lamar to be an associate justice of the United States supreme court and Mr. Vilas to be secretary of the interior. As anticipated in the United Press dispatches yesterday, the party lines were drawn on the nomination of Mr. Lamar, and there will be a majority report by all the Republicans of the committee against confirmation and a minority report signed by the Democrats of the committee in favor of the nomination. The committee will unite in recommending the confirmation of Mr. Vilas, and the reports will be submitted to the senate in secret session.

Chairman Sawyer, of postoffices and post-roads, is ready to make a unanimous report in favor of the confirmation of Postmaster General Dickinson when the reports are received from the judiciary. Inasmuch as there is no likelihood of objection being made in secret session the confirmation of Messrs. Vilas and Dickinson may follow immediately upon the receipt of the report. A final report upon Mr. Lamar is not expected under a few days, as prolonged debate is anticipated.

The House Committee at Work.

WASHINGTON, Jan. 11.—The house committee on banking and currency agreed to-day to report favorably the Wilkins bill, providing that National banks may issue circulating notes to the full par value of United States bonds deposited in the treasury.

The committee heard an argument from Comptroller Trenchard in support of his proposition to codify the National banking laws.

The house committee on foreign affairs will to-morrow organize and call upon the secretary of state and pay their respects as has been customary for several years.

Senate.

WASHINGTON, Jan. 11.—Mr. Voorhees introduced the proposed codification of National bank laws of Comptroller Trenchard.

After considerable discussion the direct tax bill went over, and at 2 o'clock the Blair educational bill came up. Mr. Wilson, of Maryland, making a speech in opposition to it.

Mr. Chandler introduced a resolution directing the judiciary committee to investigate the suppression of the colored vote at a recent election at Jackson, Miss.

The resolution to appoint a special committee on postal telegraphy was reported adversely and consideration indefinitely postponed.

The senate then took up for consideration the bill to refund the direct tax to the states.

The House.

WASHINGTON, Jan. 11.—The speaker announced the appointment of Messrs. Wheeler, of Alabama, and Phelps, of New Jersey, as

members of the board of rights of the Smithsonian institution.

Mr. Burns, of Missouri, from the committee on appropriations, reported the urgent deficiency bill, and it was referred to the committee on the whole.

The call of states, not completed yesterday, for the introduction of bills, was resumed immediately after morning business.

At the conclusion of the call of states, the house at 1:30 adjourned until to-morrow.

Dakota.

WASHINGTON, Jan. 11.—The senate committee on territories has instructed the chairman to report favorably a bill for the division of Dakota and the admission of south Dakota as a state.

COPKINS AGAIN IN COURT.

The Long Postponed Trial of the Ex-Bank Cashier Begun at Cincinnati.

CINCINNATI, Jan. 11.—Ben. Hopkins' trial for participation in Fidelity crookedness was resumed in the United States court this morning. Mr. Hopkins, attended by his wife and two daughters, appeared a few minutes before court opened and greeted his counsel, Warner M. Bateman.

Judge Sage took his seat promptly at 10 o'clock and the familiar cry of the crier started the machinery of justice. The government counsel, accompanied by Secret Service Officer Drummond and Expert Hays, were in their customary places. Col. Jerry Kiersted entered with his charge, the jury.

Judge Sage turned toward the jury and asked Mr. John Wright:

"Has any one during the intermission approached you with reference to this case?"

"Nothing more than to speak to me about my having a rest," replied the portly juror.

The query was then put to each juror in turn, and each replied:

"Nothing more than Mr. Wright has stated."

Assistant Attorney Bruce filed the bill of particulars, which Mr. Bateman called for at the opening of the trial, specifying the different times and amounts relating to the general charge of misappropriation by Hopkins of the Fidelity funds.

Mr. Bruce then read the testimony taken up to the adjournment, three weeks ago. When he concluded the well known broker, S. W. Hoyt took the stand. He had had business with Benjamin E. Hopkins, the first transaction being the purchase, January 19, 1886, of 5,000 bushels September wheat. Mr. Hoyt then gave the dates and amounts of a number of wheat transactions which he had conducted for Mr. Hopkins in his own name.

MENACED BY MONEY LENDERS.

Farms in the South and West Mortgaged to Foreign Capitalists.

ATLANTA, Ga., Jan. 11.—Considerable interest has been aroused by some statistics which have been collected, showing that the southern and western lands are fast passing into the hands of foreign and eastern money lenders. In Georgia these companies have placed many millions of dollars, holding mortgages on the finest farm lands in the state. The interest paid by the farmer amounts to 12 per cent.

Capital of this kind is still being poured into the south, notwithstanding the fact that Judge Speer, of the United States courts, has decided such interest usurious and the loans forfeited.

The syndicates are principally formed of English and Scotch capitalists, and they have such a hold in the south that they hope to reverse Judge Speer's decision. The borrowers have allowed their interest payments to lapse, hoping that Judge Speer's decision will be sustained and that they will not be forced to pay either principal or interest.

If Judge Speer's decision is not sustained a great many Georgia farmers will go into the hands of the mortgagees, as the farmers cannot possibly pay the interest which has lapsed upon them.

In the southwest there is perhaps not less than \$200,000,000 invested in this way. In Kansas alone over \$20,000,000 has been placed, while the money syndicates have their local agents in every county seeking farmers in need of loans and placing mortgages on their land. Each year adds many millions to the capital placed in this section, for which mortgages which are not likely to be raised are given to foreign capitalists.

\$45,000 DAMAGE.

The Jury Returns a Verdict in the Campbell-Arbuckle Breach of Promise Case.

NEW YORK, Jan. 11.—Part four of the supreme court was crowded to overflowing this morning by those anxious to learn the verdict in the Campbell-Arbuckle breach of promise case. Although the day was a disagreeable one, the fair sex found it convenient to be on hand in large numbers, and they eagerly discussed among themselves as to what the verdict would be. Neither plaintiff nor defendant were present. Shortly after 10 o'clock the jury filed into the court room, and the foreman drawing a packet from his pocket handed it to the judge. Ex-Judge Fullerton, of the plaintiff's counsel, was the only principal lawyer present. Judge Beach read the verdict at once and then handed it to the clerk to make it known. The clerk read that \$45,000 damages had been awarded to Miss Campbell because of the failure of Charles Arbuckle to keep his promise of marriage with the plaintiff. The announcement was greeted with applause.

Lawyer Rushmore, of the prosecution, moved for an extra allowance. Mr. Fullerton seconded the motion, and congratulated the defense on the smallness of the amount. Lawyer Filney, of the defense, opposed the motion, but Judge Beach granted Bunnie's counsel \$1,000. Mr. Filney then moved to set aside the verdict as excessive, and against the weight of evidence. This was denied, but the defendant was allowed a stay of execution and entry of judgment for forty-five days, in which he can decide whether to pay the \$45,000 to Miss Campbell or appeal the case. The latter course will probably be adopted.

JERSEY CITY, N. J., Jan. 11.—Vice Chancellor Fleet yesterday refused an injunction asked for by property owners, to restrain the Pennsylvania Railroad company from elevating its tracks through this city. This is an important victory for the company, which contemplates running a system of double deck ferry boats, connecting directly with the elevated railroad system of New York.

DEMANDS OF THE MINERS.

GEORGE W. CHILDS INTERVIEWED ON THE GREAT READING STRIKE.

He Says That the Miners' Demands Should Be Conceded to, and the Wages Raised. New York Cigarmakers Appealing for Aid—Iowa Knights to the Rescue.

PHILADELPHIA, Jan. 11.—The following interview is printed in the Ledger: Mr. George W. Childs stood in the corridor of the Fifth Avenue hotel this morning with President Roberts, of the Pennsylvania road, discussing the Reading coal strike incidentally and the labor problems in general. Mr. Childs, with A. J. Drexel, the banker, dined with Austin Corbin Saturday evening. All three listened to German opera afterward from Mr. Corbin's box in the opera house.

Mr. Childs said, in his conversation, this morning: "I believe that the laborer is worthy of his hire, and have no hesitation in saying that the advance of 8 per cent. asked for by the miners should be granted and added to the price of coal, if there is no other way for the companies to meet it. The Reading has been paying the advance for four months past. I am told that it would make a difference of \$750,000 in miners' wages. Still, I am of the opinion that the Reading and most of the other companies are ready to pay the higher wages if they could feel assured the other companies not subjected to this increase would not step in and undersell them in this city. They could not compete on such a basis."

"I believe in organized labor," continued Mr. Childs, "and in paying the highest price to the wage earner that is possible and leave a fair margin of profit to the employer. There should be good feeling and co-operation between the two. Nothing enters so largely into the efficient administration of a business as the spirit with which both sides takes hold of it. I have no doubt that but for the Typographical Union in Philadelphia, for instance, prices for composition would be lower than they are. The bricklayers' union in Philadelphia is another illustration of what workmen can do when they come together on a common platform and make known their wishes, tempered by discretion and a proper regard for the interests of their employers as well as their own."

"The Engineers' Brotherhood, with Chief Arthur at their head, have only to make a request of the railroads and it is complied with, because the roads feel that the Brotherhood is a conservative body. Organization will do a great deal for the wage earners. It will bring them higher prices for their labor, prevent strikes and encourage a spirit of co-operation between employers and employed. I am speaking now of organization on a proper basis and with nothing in view but the common welfare. As an example of what can be attained in this way, I know of no employer among my acquaintances who has not expressed himself as favoring fair pay for the laborer."

The Strike is Progressing.

PHILADELPHIA, Jan. 11.—The striking railroad men in this city feel that to-day is the most important in the history of the strike, and they await the result of the meeting of the executive board, Knights of Labor, with great anxiety. They feel that on the action of the board depends the failure or success of the strike, and seem to fully realize how important it is to them and their cause that their action should be upheld by the executive board. Messrs. Bailey and Maguire, who were down south and were expected to arrive to-day, have not been seen in the city yet, but it is expected they will be here before the time of meeting.

The coal traffic on the Reading railway was never nearer a complete standstill since the first day of the strike than to-day. No coal has been received at any of its stations and the freight handled is frightfully small. The yards with their idle, listless appearance give the impression that some dreadful calamity has happened from which the men have not recovered. The contrast at Port Richmond is plainly apparent. The wharves which, three weeks ago were filled with coal, are now almost bare, and when the colliers that are now waiting to be loaded have gone the boards will be bare. The Italians who stopped work yesterday morning have not returned.

Master Workman McGill, of Assembly 8819, was seen at Second and Poplar streets this morning. He said the men were very angry over the meeting of the Reading stockholders yesterday, because no action was taken regarding the strike. He said the men were snubbed, but added, "We will see who is snubbed in the end."

At Front and Willow and Noble streets, Reading's largest freight center, nothing is being done beyond shifting a few cars.

General Manager McLeod said there was nothing new to-day. The general feeling is that a crisis will soon be reached.

In a private conversation with three of Reading's stockholders to-day, President Corbin is reported, on good authority, to have said that no compromise would be made with the miners and they could stay out as long as they pleased.

Refusing Credit to Strikers.

PORTSVILLE, Pa., Jan. 11.—A denial of the statement that the merchants' exchange of this city had decided to refuse credit to strikers was telegraphed to Philadelphia papers a day or two since. It can be positively stated, however, that the exchange has decided to refuse credit to the strikers on and after Wednesday next, and are now signing a bond to that effect.

Iowa Knights Offer Support.

DUBUQUE, Iowa, Jan. 11.—The Knights of Labor of Dubuque have sent a telegram to the striking miners of the Reading system, promising support and advising them to stand firm for their just rights and arbitration, and to give the Pinkertons no chance.

Cigarmakers Appealing for Aid.

NEW YORK, Jan. 11.—At a meeting of the Cigarmakers' union last night an appeal was adopted which will be sent throughout the country. It begins:

"FELLOW WORKMEN—The wolves are upon us, and we are compelled to call on you for immediate support. The United Cigar Manufacturers' association, a conspiracy of eighteen of the most relentless grinders in the trade, are, in midwinter, trying to force

all the cigarmakers of this city down to the tenement house level. They propose to do this by reducing wages in the shops, and by reviving the tenement house system wherever that system has been driven out. The plea of the manufacturers is that the trade is fast leaving New York city, and that it can be brought back by bunch machines and tenement houses only."

Weavers Return to Work.

FALL RIVER, Mass., Jan. 11.—The weavers at the Wampanoag mills, who struck Friday returned to work yesterday. There is as yet no sign of a meeting of manufacturers to consider the wage question.

Big Copper Shipments.

MARQUETTE, Mich., Jan. 11.—Since December 7, 6,366,000 pounds of copper have been shipped from Houghton to New England and the Atlantic seaboard.

Celebrating Jackson's Victory.

NEW YORK, Jan. 11.—The county Democracy celebrated the victory of Jackson at New Orleans by making patriotic speeches at Cooper Union last night. Col. Fellows presided and Hon. F. R. Condit was the orator of the evening. President Cleveland sent a letter in which he said: "The hero of the battle of New Orleans won such victories in peace, no less renowned than in war, and fought so bravely on the field of politics as well as on the field of battle, but his name is endeared to every Democratic heart. In his later days his character and his acts may be contemplated with profit."

Returned to Her Husband.

NEW HAVEN, Conn., Jan. 11.—Last February Fannie Howe, daughter of the Ohio, historian, privately married J. Sheehan, tenor of Trinity choir, this city. The Howe family made a sensation out of it when they learned of the marriage. They separated the couple and instigated divorce proceedings, alleging that the girl had been drugged and inveigled into the marriage. They took Mrs. Sheehan to Ohio with them. Yesterday she returned here and joined her husband. The divorce suit will undoubtedly be dropped.

Lead and Zinc in Demand.

ST. LOUIS, Jan. 11.—David P. Hunt, of Joplin, Mo., an extensive miner of zinc, is in the city. To a reporter he said: "Never in peaceable times has there been such a demand for lead and zinc as at present. During the last four months it has been phenomenal, and miners cannot keep up with their contracts. Zinc is in even greater demand than lead. Agents of the French government have purchased nearly the entire American output, to have it on hand, for the manufacture of brass field pieces."

Comstock on the War-Path.

NEW YORK, Jan. 11.—Anthony Comstock, as the head of the Society for the Prevention of Vice, at the head of a lot of city police, has made a raid on the anatomical museums of the city. About half a dozen of them were visited and their proprietors and the employees arrested. The officers also seized some wagon loads of wax figures, which were declared to be lewd and altogether unfit for public exhibition, and carted them off to a police station.

Suing Him and His Bondsmen.

INDIANAPOLIS, Jan. 11.—"The United States vs. Frederick Hoover, et al, demands \$50,000" is the title of a suit begun in the Federal court yesterday. In 1885, Mr. Hoover was appointed to an Indian agency, and resigned after a year's service. The complaint filed alleges that in his settlement with the department he was \$336 short, and the demand is made against him and his bondsmen for the full amount of their joint liability, \$50,000.

Paymaster Shot.

BIRMINGHAM, Ala., Jan. 11.—News has been received here of the shooting of Paymaster Ruffin at a railway camp on the Birmingham Mineral. He became involved in a row with a negro, and another negro compelled him at the mouth of a revolver to hold up his hands while his assailant shot him. Ruffin is still alive, but will almost certainly die. The negro who did the shooting escaped, but his partner is in jail here.

Paid the Death Penalty and Still Living.

GAINESVILLE, Ga., Jan. 11.—It is alleged here that Tillman C. Justice, the moonshiner who was hanged in November for the murder of an informer, was cut down while still breathing, and allowed to escape, and that he is now alive and well. The execution took place in Town county, where the moonshiners are very strong, and where there is much collusion between them and local officials. The story is believed to be true.

Triple Drowning.

MOBILE, Ala., Jan. 11.—On Saturday night last Robert Veltz, a young architect who is superintending the erection of the Baldwin county court house, went out in a small sail boat with three mechanics, Miller, Lewis and Wilson, to go to Point Clear, on the eastern shore of the bay. The boat capsized, and Veltz, Miller and Lewis were drowned. Wilson clung to the boat all night and was rescued.

Low River Causes a Failure.

CINCINNATI, Jan. 11.—James Esberg, doing business as the City and Brighton Transfer company, at 178 Water street, and Paterson street, between Bank and Harrison, assigned at 9:45 a. m. to Howard Ferris. Assets, \$6,000; liabilities, \$4,300. Preferences: John Orr, \$507.50; G. W. Fisher & Company, \$1,206.02; John Richards, \$310.25. Cause, slow trade on account of low stage of the river.

Canadian Pacific Officials Arrested.

OTTAWA, Jan. 11.—It is learned that Lawson, the telegraph operator, and five of the officials of the Canadian Pacific railroad have been arrested at Port Arthur for negligence, resulting in the recent Horseshoe curve accident, near Jack Fisk, Lake Superior district.

Eaten by Hogs and Buzzards.

BIRMINGHAM, Ala., Jan. 11.—The half-dead remains of a man, supposed to be white, were found fourteen miles from here in an old field Sunday. They were so disfigured by animals and buzzards as to be unrecognizable. No clue to his identity.

Will Fight With Hard Gloves.

CLEVELAND, O., Jan. 11.—Sam Bittle, of Galt, Ont., the pugilist, and Reddy Gallagher were last night matched to fight eight Queensberry rounds with hard gloves, at the C. Ireland gymnasium February 7.

A. C. RESPASS, P. M.

The famous Sigman case is on trial at
Mt. Vernon. Sigman killed a boy dur-
ing the war for yelling for Jeff Davis.
He moved to Missouri afterwards, and
was not indicted until two years ago,
when he was brought back to answer the
charge. A previous trial resulted in a
hung jury. It is now claimed by Sig-
man that he was a Federal soldier at the
time of the killing, and that he had the
right to shoot Higginbotham for his trea-
sonable utterances. The G. A. R. has
put up money for Sigman's defense, and
will do their utmost to clear him.

COLORED TEACHERS OF MASON.

Proceedings of the Monthly Meeting
of Their Association at
Lewisburg.The monthly meeting of the Mason
County Teachers' Association, colored,
was held at Lewisburg last Saturday,
Vice President P. McFarland presided.
The Secretary, William H. Powers, has
furnished the BULLETIN with the follow-
ing proceedings:The meeting was opened at 11 o'clock
with singing, No. 89 Gospel Hymns, fol-
lowed with prayer by Rev. O. W. Fox.
Vangie Clinton delivered the address of
welcome. J. W. Powell responded."Hygiene of the School Room" was
then discussed at length by J. W. Powell.
and W. H. Powers.During the intermission, dinner was
served at the home of O. W. Fox.The afternoon exercises were opened
by O. W. Fox on "School Economy." The
paper was lengthy and well prepared.
W. H. Powers followed with a discussion
of the subject.J. W. H. Powell next took the floor
and read a paper on "School Govern-
ment." Mr. McFarland followed at some
length.The remaining parts of the programme
were discussed briefly.An assessment of 15 cents per member
was made to defray expenses, and the
Secretary was instructed to notify absent
members of the assessment and collect
the same.After singing "Shall We Meet?" a vote
of thanks was tendered the citizens of
Lewisburg and vicinity "for kindnesses
shown, and the interest manifested by so
large an attendance." The association
adjourned to meet at Washington Satur-
day, February 4, 1888.

Messrs Poyntz & Watson, liquor deal-
ers, "may be considered first rate, when
we say that it kept us hustling to fill
our orders, from nearly every State in
the Union. Trade with us in 1887 was
much better, both in regard to volume
and prices, than during the year 1886. In
fact we nearly always have plenty to do.
Consequently we never "kick." In 1888
we expect to beat the record."This powder never varies. A marvel of pu-
rity, strength and wholesomeness. More eco-

IN PARLIAMENT OR IN JAIL

AN IMPORTANT QUESTION FOR IRELAND'S REPRESENTATIVES.

But few of the Emerald Isle's Statesmen Able to Attend the Opening of the British Parliament—President Carnot Gives No Assurance of Peace.

LONDON, Jan. 11.—Unless there should be a cessation of the government's prosecution of Irish editors and members of parliament, either through the conclusion of the executive that sufficient punishment had been inflicted for offenders of not very grave character, or the arrival of the Irish leaders at a decision that the government can stand the unequal contest longer than they can, the Irish representation in the house of commons at the opening of parliament will be much smaller than it has been for many years.

With Mr. Sexton dangerously and perhaps fatally ill, Mr. Parnell in a state of health that will necessitate his absence from his seat at least half of the time during the session—unless his ailments should take a surprising turn for the better—and several of the most useful members of the National party serving terms in jail, which will not expire until after the beginning of the session, the Irish party is ill equipped for a parliamentary struggle with the ministerial majority. The harsh policy of the Government in Ireland has brought abundant sympathy to the side of the Home Rulers, but sympathy is not what they are just now in need of. They need men; they need Sexton, Harrington, Sullivan, O'Brien and others, whose services it now appears they cannot count upon, and probably before the beginning of the session, on February 9, not a few of the members who are now relied upon to be present will occupy cells in jail.

Mr. Sexton, in all likelihood, will not be able to take his seat next month, if he ever does, and assuming Mr. Harrington's appeal is delayed in its argument for two months, he will be removed from the house at the very time when he should be constant in his attendance, for go to jail he must.

Messrs. Sullivan and O'Brien will by that time have been released, but the chances of the latter, if not of both, for confronting another prosecution with almost certain conviction are painfully plain. The sentiment involved in the persistent defiance of the press and other clauses of the coercion act is nothing if not patriotic, but the gentlemen indulging in such acts should consider whether they cannot better serve their country in parliament than in jail.

Committed Suicide.

LONDON, Jan. 11.—The Rev. John Lowther, rector at Balton, near Wigan, Scotland, to-day shot and killed himself. He had been summoned to court to answer a charge of indecent assault on his servant. The deceased was a cousin of Lord Lansdale and a relative of Mr. James Lowther, ex-Irish secretary.

A Denial From President Carnot.

PARIS, Jan. 11.—The Journal Des Debats prints an official denial of the statement that M. Carnot instructed M. Herbetto to inform the Russian government that so long as he should be president of the French Republic there would be no war involving France.

Twenty Million Dollars Needed.

BERLIN, Jan. 11.—The equipping of men demanded by the new military bill will require a vote of \$20,000,000.

FATAL BOILER EXPLOSION.

Two Men Killed and Several Injured at Brazil, Indiana—Cause Unknown.

BRAZIL, Ind., Jan. 11.—One of a battery of two boilers at the Central Iron & Steel company's rolling mill, in the center of the city, exploded at 12:30 p. m. yesterday, demolishing the north end of the mill and scattering wreck and ruin everywhere. The boiler, twenty-six feet long by forty-two inches in diameter, parted near the middle, the parts being projected in exactly opposite directions, each demolishing a huge brick smoke stack in its course and one standing sixty yards away. Most of the 350 employees were at dinner, otherwise the loss of life might have been great.

Matt Mortimer and William Williams, puddlers, were at work at the fatal furnace. The former was buried under tons of red-hot brick, and his remains were crushed and burned beyond recognition. The latter was badly scalded, but may live. The boiler passed directly over his head. John E. Tobin, puddler, late of Chicago, has since died of injuries. The others injured are:

J. G. Lewis, puddler; head bruised.
Pete Dolan, late of Terre Haute; left leg broken.
Elias Davis, puddler; scalded.
John Kaufman, hit by a missile on the head.

Two or three others were injured more or less slightly.
The boiler was about two years old, and was cleaned and tested Sunday. Competent engineers were in charge.

On February 10, 1885, an adjoining battery exploded, with about the same wreck, but causing ten fatalities.

Tried to Cheat the Gallows.

LOUISVILLE, Ky., Jan. 11.—Mary Warner, under sentence of death for killing Frank Harris, in the Southern Indiana prison at Jeffersonville, both being convicts, broke jail at Jeffersonville, together with William McCain, a colored thief, yesterday afternoon at 3:30 o'clock. Warner feigned sickness, and had the privilege of the corridor. Young Hay, a brother of the sheriff, went into the cage to get a bucket, when the negro seized and held him while Warner relieved him of his revolver and \$3.50 in money. Warner in the meantime flourishing a razor and threatening death to Hay if he made a noise. The turnkey was then locked in a cell and the two walked out. They crossed the river to this city, and were captured here last night by the police. They fought hard, but were taken down by clubs. Warner's execution is set for March 9.

Robbed While Lying Dead.

OWINGSVILLE, Ky., Jan. 11.—A bold and mysterious robbery is reported from Wyoming, a little town six miles north of this place. Mr. Jesse Atchison, who was decidedly the wealthiest man in that community, died a few days ago. A good share of the old gentleman's wealth consisted of ready cash, a good deal of which he always kept about the house, and, as the reporter has it, on the night Mr. Atchison lay a corpse the thief, evidently well acquainted with the premises, entered and stole an amount of money variously estimated at from \$1,000 to \$2,000. There seems to be not the slightest clue to the perpetrator of the theft, and no one is suspected.

POINTED PARAGRAPHS.

Topics of the Times Given in a terse and spicy manner.

Corean embassy has arrived in Washington.

Master Workman Powderly is slowly gaining strength, but is yet too weak to go to Florida.

Twenty-five thousand spinners at Fall River, Mass., threaten to strike unless an advance is granted in wages.

In a fight between Cobden and Edwards at Riverside, near Chicago, Edwards was knocked out in the ninth round.

Congressman Butterworth is steadily improving in health, and is preparing several bills to be presented to the house.

David Evans Pendleton was run over and instantly killed in the yards at Columbus, O., while a transfer was being made.

Twenty-five thousand spinners at Fall River, Mass., are preparing to go on a strike unless an advance in wages is granted.

The Utah legislature has been organized in both branches. There are five Gentiles and thirty-five Mormons in the two houses.

Chee Gong and Fong Long Dick, Chinamen, have been sentenced to hang at Portland, Ore., for the murder of Lee Vick.

One hundred coal miners have gone on a strike at Washington, Ind., on account of being docked for coal dust in mine weights.

Gens. Sherman and Sheridan have accepted invitations to attend the Grand Army encampment at Columbus, O., next September.

Edward Gergens was assaulted at Chattanooga by an unknown party, who hit him in the head with a coupling-pin, fracturing his skull.

The coming horse, according to Eastern judges, at next season's running meetings, is Stayveant, a colt owned by Sam Brown, of Pittsburgh.

William H. DeForest, wholesale silk dealer in New York, failed Monday, giving preferences for over \$400,000. Last May he claimed to be worth \$1,375,000.

Congressmen at Washington are discussing the project of each having a private clerk to relieve them from onerous clerical labor, but are afraid their constituents may kick.

Passenger train on the Union Pacific collided with a freight at Edison station, W. Y. Two emigrant cars were telescoped, two passengers killed and several others injured.

William J. Ritchie, claiming to be the son of a member of parliament, has been arrested in New York on the charge of defrauding a servant girl out of \$10 and forging an \$18 check.

Methodist ministers of Baltimore are agitated over President Cleveland's jubilee present to the pope, and are considering a resolution denouncing the presentation as an acknowledgment by the chief executive of the United States of the pope as a legal or spiritual potentate.

It is said that Thomas W. Chastanie, of Virginia, and Charles F. Dodge, of New York city, were recently expelled from Yale university because they played a game of poker, the stakes being the privilege of paying exclusive attention to a New Haven heiress with whom they were both smitten.

Henry S. Ives will probably escape indictment by the New York grand jury for alleged frauds in the Cincinnati, Hamilton & Dayton and Vandalia deals. He has been elected director of the Terre Haute & Indianapolis & Dayton people out of the board.

Kilrain and Smith's present tour of hippodroming through England will be followed by a similar trip through this country, and will make for them an immense amount of money. It is generally accepted as proof that the recent "flight" in France was a prearranged affair. As an "ad" it was a huge success.

The stock market opened fractionally lower for the general list, while Louisville & Nashville were especially weak, and declined 1 per cent. on selling by some heavy holders, who were evidently disgruntled by the declaration of a scrip dividend yesterday. After the first fall a buying movement in the Grangers and Reading was developed and prices under their lead recovered rapidly. At noon prices were generally fractionally higher than they closed last night, except for Louisville & Nashville, which continues weak. The market has since been dull.
